Professional Summary

Frontend developer with three years of experience turning designs and business requirements into accessible and secure production web apps with **React**, **Next.js** and **TypeScript**. My work makes pages load faster (**Core Web Vitals**, bundle size), improves search visibility (**SEO**) and makes everyday tasks easier for users, while solid authentication and access control keep their data protected. I build components and a shared **design system** that speed up delivery, back them with **Vitest** tests and **GitHub Actions** CI/CD, and work closely with designers and backend engineers. I use **Git**, **Cursor** and **Claude** to move fast without cutting quality.

Technical Skills

Languages: JavaScript, TypeScript, Java, SQL
Frontend: React.js, Next.js, Redux, Redux Toolkit, TanStack Query, Zustand, HTML5, CSS3, Tailwind CSS, CSS-in-JS, Responsive Design, Accessibility, Figma, Design Systems
Performance and SEO: Core Web Vitals, lazy loading, code splitting, memoization, API caching, dynamic metadata
Architecture, APIs, Auth: Micro-frontends, REST APIs, WebSockets, Kong API Gateway, Keycloak, JWT, OAuth, NextAuth, RBAC
Testing: Vitest, Testing Library, Unit Testing, End-to-End Testing
Tools: Git, GitHub, GitHub Actions, CI/CD, Cursor, Claude, MySQL

Professional Experience

Frontend Developer — Hidden Brains Pvt. Ltd. — October 2023 – Present

- Build production **React** and **Next.js** apps in **TypeScript**, with **SSR**, **SSG**, **ISR**, dynamic routing and API routes.
- Developed reusable UI components. Contributed to shared component libraries and the **design system**; translated **Figma** designs into pixel-perfect, responsive, accessible components with **Tailwind CSS** and **CSS-in-JS** for a consistent experience across modules.
- Implemented **Keycloak** authentication, dynamic modules and role-based access control (**RBAC**) for an enterprise CRM used internally and as a commercial product, plus **WebSocket**-based real-time messaging for its WhatsApp integration.
- Built responsive dashboards and data-driven interfaces with **Redux Toolkit**, **TanStack Query** and **Zustand** for state management and REST API integration, including large-data views in Quickbank.
- Built e-commerce features (product listings, cart, checkout, order management). Contributed to a Dubai-based car-selling platform on **Next.js micro-frontends**, managing multiple application zones and integrating **Kong API Gateway** for secure routing.
- Improved **Core Web Vitals** and page speed with lazy loading, code splitting, memoization and API caching, cutting page load time by **30%** and bundle size by **20%**, with fewer unnecessary renders so pages feel smoother; applied **SEO** best practices (dynamic metadata, semantic HTML) to improve search visibility and frontend security practices (token and input validation, secure sessions) that raised the security score to **grade A**.
- Wrote unit tests with **Vitest** and **Testing Library** and end-to-end tests; set up **GitHub Actions** workflows for **CI/CD** (lint, test, build) and kept releases clean through **Git** and **GitHub** pull requests.
- Worked closely with designers and backend engineers, read backend code to scope API integrations, took part in code reviews and incident response, and maintained technical documentation; used **Cursor** and **Claude** to speed up debugging.
- Projects: Car Selling Portal, CRM, Invoicing Portal for Malaysia, Production Management System, Quickmart, Quickbank.

Intern — Hidden Brains Pvt. Ltd. — January 2023 – October 2023

- Built responsive, accessible UI components with **React**, **JavaScript**, HTML5 and CSS3 from **Figma** designs.
- Integrated REST APIs and fixed UI bugs on live client projects under senior developers' guidance.
- Learned **Git**/**GitHub** workflows and code reviews; converted to full-time Frontend Developer in October 2023.

Education

B.E. — SNJB's Late Sau. K.B.J. College of Engineering, Chandwad, Maharashtra — 2019 – 2023 — CGPA: 9.06

Achievements

- Global rank 4,167 in TCS CodeVita Season 10.
